

COMMERCIAL OFFER

FROZEN BREAD & BAKERY PRODUCTS

PREMIUM QUALITY • RELIABLE SUPPLY

Dear Sir or Madam,

Thank you for your interest in our frozen bread and bakery products. We are pleased to provide our commercial offer and would be happy to tailor the quotation to your product requirements, destination and expected order volume.

Our team provides professional support in English, French, Romanian, Russian and Ukrainian.

PRODUCT	Frozen Bread & Bakery Products A selection of frozen bread, baguettes, mini baguettes, toast breads, speciality breads, croissants and other bakery products. Product selection and specifications can be tailored according to customer requirements and available manufacturer assortment.
PRODUCT FORMAT	Selected products undergo controlled fermentation and are partially baked before freezing. They are supplied frozen and designed for convenient finishing at the point of sale or foodservice location. Typical finishing time: approximately 10-15 minutes, depending on the product and oven conditions.
STORAGE	Products are transported and stored frozen. Recommended storage temperature: -18°C or below, subject to the specification of the selected product. Shelf life varies by product and is confirmed in the relevant product specification.
PACKAGING	Packaging format, case configuration and unit weight depend on the selected product and customer requirements. Export-suitable packaging for frozen transportation is available.
PRICE	PRICE ON REQUEST The final price is calculated based on the selected product, order volume, packaging requirements, delivery destination and agreed delivery terms.
DELIVERY TERMS	Delivery terms are agreed according to the destination, shipment volume and customer requirements. Frozen products are transported under controlled temperature conditions to maintain the required cold chain. Incoterms® 2020 can be specified in the quotation.
DELIVERY PERIOD	Lead time is confirmed individually after agreement on the product assortment, quantity, packaging and delivery terms.
PRODUCT SPECIFICATION	• Frozen bread and bakery products manufactured in Ukraine • Selected products produced using controlled fermentation processes • Selected products partially baked before freezing • Designed for final bake-off at the point of sale or foodservice location • Typical finishing time: approximately 10-15 minutes, depending on product • Frozen storage and transportation at -18°C or below, subject to product specification • Suitable for retail, bakery, HoReCa, catering and foodservice applications • Individual product specifications and technical documentation available on request • Origin: Ukraine
QUALITY & CERTIFICATION	Products are manufactured by a certified Ukrainian producer operating under internationally recognised management standards. • ISO 22000:2018 — Food Safety Management System • ISO 9001:2015 — Quality Management System • ISO 14001:2015 — Environmental Management System • Product quality documentation available • Manufacturer's ISO certificates valid until 22 December 2028
DOCUMENTS	Commercial Invoice • Packing List • CMR / Transport Documents • Product Specification • Quality Documentation • Storage & Shelf-Life Information • Manufacturer Certificates • Export Documentation and other documents required for customs clearance, where applicable.

We would be pleased to discuss your requirements and prepare a tailored quotation.
We look forward to establishing a long-term and mutually beneficial cooperation.
